

Website Cookie Policy

Transparency Standards under the European ePrivacy Directive (S.I. No. 336/2011)

Last Updated: July 10, 2026

This Cookie Policy establishes how [Insert School Name] leverages cookies and allied browser markers to configure your website connection. This notice applies directly beside our Privacy Policy to guarantee full transparency regarding automatic device tracking.

1. The Concept of Website Cookies

Cookies consist of miniature alphanumeric characters written directly to your smart tool or desktop device via your system browser as you click into a web portal. They allow our platform to safely verify active visitor sessions, preserve user-selected variables (such as accessibility preference layout configurations), and provide generalized analytical charts regarding page traffic speeds.

2. Summary of Standard Trackers

Cookie Name	Source Domain	Core Function	Duration
<code>sch_consent_token</code>	First-Party	Stores your explicit setting preferences selected on our compliance popup banner.	1 Year
<code>_ga / _gid</code>	Third-Party (Google)	Logs traffic pathways in an aggregated, anonymous format to identify errors.	2 Years / 24 Hours
<code>session_id_sec</code>	First-Party	Ensures secure text entry handling when filling out online school inquiry sheets.	Session Close

3. Modifying Your Tracking Setups

Our online interface triggers a dedicated interactive selection window upon initial entrance, providing the immediate power to deny or grant non-mandatory analytics cookies. Furthermore, you can use your browser's deep parameters ("Settings" > "Privacy") to fully refuse or clear historic cookie markers.
